

Asbestos Sampling*

Trench Safety

Firm Background

Established in San Diego in 1986, Ninyo & Moore is one of the largest engineering firms specializing in Geotechnical Engineering, Environmental Engineering and Materials Testing and Inspection Services. Engineering News Record (ENR) recognizes the firm as one of the Top 500 Design Firms in the United States.

Ninyo & Moore has fully equipped and certified in-house testing laboratories that offer full-service field and laboratory services for geotechnical design, and soil and materials testing projects.

Professional Staff

Ninyo & Moore's staff of 500 certified and registered professionals includes:

- Geotechnical engineers
- Civil engineers
- Engineering geologists
- Hydrogeologists
- Geophysicists
- Field technicians
- Special inspectors
- Environmental engineers
- Environmental scientists
- Industrial hygienists
- Asbestos consultants
- Safety professionals
- Indoor environmental consultants
- Microbial consultants
- Lead consultants
- Qualified SWPPP developers/practitioners
- Hazardous waste and regulatory compliance specialists

Locations

Ninyo & Moore has offices located in the western United States, including California, Arizona, Nevada, Colorado, Utah, and Texas.

Ninyo & Moore offers expert industrial hygiene and safety assessments, which typically involve on-site evaluations led by a Certified Industrial Hygienist (CIH) or a Certified Safety Professional (CSP). In most cases, workplace contaminants or physical agents are quantitatively sampled and reports prepared which summarize the results of the evaluation and recommendations for mitigation.

Industrial Hygiene and Professional Safety

- Accident investigation
- Airborne contaminant monitoring
- Biological hazards assessment
- Chemical hygiene plans
- Confined space entry design
- Expert witness testimony
- Forensic evaluations
- Hazard communication plans
- Health and safety plan preparation
- Health and safety program review
- Health and safety monitoring
- Hearing conservation programs
- Heat stress monitoring programs
- HAZWOPER and specialty training
- Illness and injury prevention programs
- Indoor air quality surveys
- Industrial hygiene assessments
- Legionella in water systems
- Noise monitoring
- OSHA compliance
- Personnel exposure assessments
- Radiological materials surveys
- Respiratory protection programs
- Wildfire Smoke Impact Assessments
- Expert testimony

Mold and Indoor Air Quality Services

- Microbial assessments
- Moisture infiltration control recommendations
- Microbial abatement specifications
- Microbial post-abatement inspections and confirmation sampling
- Sick-building syndrome and building-related illness investigations

PCB-Related Services

- PCB waste disposal per TSCA
- PCB surveys
- PCB management plans
- PCB-containing surfaces abatement specifications
- PCB-containing surfaces abatement monitoring/sampling
- Post-abatement inspection and confirmation sampling
- Close-out reports

Asbestos-Related Services

- Asbestos surveys
- Asbestos management plans
- Asbestos abatement specifications
- Asbestos abatement monitoring
- Asbestos clearance activities
- Post-abatement inspection and confirmation sampling
- Close-out reports

Lead-Related Services

- Lead-containing surfaces surveys
- Lead-containing surfaces management plans
- Lead-containing surfaces abatement specifications
- Lead-containing surfaces abatement monitoring
- Lead-containing surfaces clearance activities
- Post-abatement inspection and confirmation sampling
- Close-out reports
